STANDARD OF SILVER.

As a rule the quality of Government Coin has been the standard on which Silversmiths have based their quality. The standard of United States Coin is 900-1000 pure silver to 100-1000 copper or other alloy. The standard of Great Britain is $925/1000$ pure silver to 75-1000 alloy.

Our leading Silversmiths, the GORHAM COMPANY, adopted the English Standard many years ago, and so careful has been the surveillance over the quality of their ware, that not a SINGLE PIECE has been known to leave their Factory under the standard. So well is this now understood that their trade mark  is as well known to all purchasers of Solid Silver in this country, as is the Hall Mark of England, as a sure guarantee for pure metal.
